

RIVERBOOST

Consent Form

I understand that I and the organisation I represent (henceforth referred to as I), are consenting to participate voluntarily in the specific research activity of the European Union-funded project RIVERBOOST (Project number 101137650), as described below.

Project & activity specifics and role of participant

RIVERBOOST will demonstrate the first-of-its-kind fully electric inland vessel on the Dutch waterways, utilising advanced vessel, battery, and powertrain designs to achieve 40 % greater range than current state-of-the-art alternatives. To achieve this, the project will introduce a swappable hybrid energy storage system, a modular DC architecture, and other key innovations to provide improved energy density and operational flexibility, extended system lifetime, support for stationary services and green charging, improved sustainability while promoting safety standards and crew transition to these new practices.

I will contribute to this research by participating in the Inland E-Vessel community (the stakeholder group of RIVERBOOST). The information I provide during meetings or workshops may be used by the project and the outcomes of this interaction could be beneficial for RIVERBOOST.

Disclosure of information

I am free to refuse to disclose information that I feel is commercially or institutionally sensitive or related to topics that I do not wish to discuss, or express that I only want to share certain sensitive information on a bi-lateral non-disclosure basis.
I agree that the result of the research activity will be used for further analysis within RIVERBOOST.

General

My participation in the project is voluntary. I have the right to withdraw from the participation at any time without prejudice. I have the right to ask for additional information at any time and receive understandable and timely answers.
Finally, I have been given the contact details of a RIVERBOOST contact person and I have been informed that I am free to contact this person about any issues or questions I might have related to the project.

Consent form
Project & activity specifics and role of participant
I confirm that I have read the information sheet explaining the RIVERBOOST project and I have had the opportunity to ask questions about the project.
I confirm that I have read the information under the heading 'Project & activity specifics and role of participant' in the RIVERBOOST project.
General
I confirm that I have read the information under the heading 'General' in the informed consent form provided.
I confirm that I have read the information sheet and understand what is expected.
I confirm that I have had the opportunity to ask any questions and to have them answered.
I understand that notes will be taken and that the Inland E-Vessel Community meetings, including my participation will be audio recorded, pictures and photos can be made and published, a video is being streamed and recorded and can be broadcasted on-line.
I understand that files may be kept.
I understand that there is no compensation for participating in the Inland E-Vessel Community
I understand that my participation is voluntary and that I am free to withdraw at any time without giving any reason.
I understand that my personal data will be kept treated as confidential.
I understand that the information from my participation to the the Inland E-Vessel Community will be pooled with other participants' responses, anonymised, and that general conclusions may be published.
I conform that I am an adult.
I consent to take part in the Inland E-Vessel Community.
